HWC 250: The Individual and Civilization

What is the relationship between civilization and the individual? In what ways do technologies influence that relationship? How can human beings retain their individuality in an increasingly connected and technologically uniform world? Through a mixture of primary texts, historical analysis, and fiction, students will analyze and evaluate (1) the causes and effects of increasingly complex social development, (2) the origins and impact of individualism, and (3) the ways in which technologies have shaped the relationship between individuals and society in various times and cultures. Freshmen welcome!

Who: Dr. Sean Seyer
When: 1:00-2:15 T/Th
Where: 202 Bailey
Class #: 66609

Fulfills Goal 3 Arts and Humanities (GE3H), H Humanities (H), and HL Literature & the Arts PC (HL). Required for the Humanities major track.
